VOLUNTARY ANNOUNCEMENT
(I) BUSINESS EXPANSION INTO EMBODIED INTELLIGENCE, AI COMPUTING AND STORAGE; AND
(II) ENTER INTO COOPERATION AGREEMENT

This announcement is made by Jsmart Technologies Group Limited (the "**Company**", together with its subsidiaries, the "**Group**") on a voluntary basis to keep shareholders of the Company (the "**Shareholders**") and potential investors of the Company informed of the latest business developments of the Group.

BUSINESS EXPANSION INTO EMBODIED INTELLIGENCE, AI COMPUTING AND STORAGE

Given that the artificial intelligence ("**AI**") and embodied intelligence markets are in a phase of rapid development, they contain enormous business opportunities and growth potential. The Group's business includes the manufacturing and trading of printed circuit boards ("**PCB**"), which are essential core components for AI servers, computing power storage, chips and robotic hardware. Leveraging on the Group's accumulated technological capabilities and experience, the Group plans to strategically expand into embodied intelligence, AI computing, storage, chip and server-related businesses. This initiative aims to extend the Group's principal business along the PCB industry value chain into higher-value upstream and downstream segments, thereby further diversifying the Group's revenue sources, capturing industry development opportunities and creating long-term value for the Company and Shareholders.

ENTER INTO AN AGREEMENT IN RELATION TO COOPERATION

To implement the above business strategy, the Group entered into a cooperation agreement (the "**Cooperation Agreement**") on 21 September 2026 in relation to the cooperation with SVA Distribution Limited (偉訊特科技有限公司*, "**SVA**").

INFORMATION ON SVA DISTRIBUTION LIMITED

SVA is a leading value-added technology solutions provider established in Hong Kong in 2018. SVA has extensive experience in technology product development, sales and marketing, with business coverage across the Greater Bay Area and the Asia-Pacific region. SVA has long served Hong Kong government departments, public organisations and major commercial enterprises, supported by a mature local technical service team and broad market channel resources. In addition, SVA has actively developed its strategic presence in the embodied intelligence industry and has entered into a value-added distributor agreement with AGIBOT PTE. LTD. (智元機器人私人有限公司*, "**AGIBOT**"), under which SVA is authorised to sell and promote AGIBOT's embodied intelligence robotic hardware, software and related services in Hong Kong (the "**AGIBOT Distributor**").

PRINCIPAL TERMS OF THE COOPERATION AGREEMENT

Under the Cooperation Agreement, the Company and SVA intend to collaborate comprehensively in the following areas:

1. **Embodied Intelligence Business.** SVA will leverage its extensive market and customer resources, as well as its position as the AGIBOT Distributor, to work closely with the Group to jointly expand the intelligent robotics market in Hong Kong, Macau and the Asia-Pacific region. The cooperation scope includes product development, customised solutions, marketing and promotion, equipment leasing and manufacturing, with the aim of providing customers with a broad range of embodied intelligence products and one-stop solutions.

2. **AI Computing and Storage Business.** The parties will jointly expand AI-related computing, storage, chip and server businesses. The cooperation model will integrate the Group's research, manufacturing and technological strengths in the PCB sector with SVA's advantages in market channels, customer resources, project implementation and value-added technical services, enabling both parties to provide high-quality technology products and integrated solutions to government bodies, public organisations and commercial enterprises.

REASONS FOR AND BENEFITS OF ENTERING INTO THE COOPERATION AGREEMENT

The board of directors of the Company (the "**Board**") considers that the business expansion and strategic cooperation with SVA will generate significant synergies and facilitate the Group's rapid entry into the embodied intelligence and AI computing and storage sectors, aligning with the Group's long-term development strategy. The Board believes that the terms of the Cooperation Agreement are fair and reasonable and in the interests of the Company and the Shareholders as a whole. The Group will continue to implement the above business initiatives through professional teams, internal resource allocation and external financing arrangements.

As the Cooperation Agreement is not legally binding with respect to the potential project with SVA, and such potential project may or may not proceed. Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.

By order of the Board
Jsmart Technologies Group Limited

SUN Jingan
Executive Director

Hong Kong, 21 September 2026

As at the date of this announcement, the Board comprises two executive Directors, namely, LEE Man Kwong and SUN Jingan, one non-executive Director, namely, YAU Pak Yue and three independent non-executive Directors, namely, CHAN Yau Ching, Bob, LEUNG Hoi Ming and LIN Ying.
